## Samsya Khoj Contest

1e (First Edition), 24.04.2024

<i>Result</i>	<b>Contest Winner</b>
<i>Problem Title</i>	<b>Duplicate seeds in agriculture are doing a lot of harm to farmers</b>
<i>Problem Description</i>	<p>We belong to an agricultural family. My Grandfather is a farmer. Like us in our surroundings, so many farmers are facing a big problem that is "Duplicate Seeds in Agriculture".</p> <p>Duplicate seeds are bought and farmers believe that they will give good yields. But they are drowning in the losses due to the arrival of the poor crop yields at the time of harvest.</p> <p>Some farmers are committing suicide because they cannot cope. Some others are suffering from loans/borrowings. Many of them do not have proper knowledge about good seeds and are deceived into believing that whatever they find in the shop are good. Because of this money, time, and crops are all lost.</p> <p>"If a business man is at loss then the business only lost. But if a farmer loses, many people have to fight with hunger along with him."</p> <p>I myself experienced this in my life. "So, duplicate seeds has become a big problem for the farmers."</p>
